SERR Newsletter 1/2016

11 JANUARY 2016

Dear SERR SYNERGY CLIENT

We hereby wish to thank all our clients for their support in 2015 and extend our best wishes to every business owner and their staff for 2016.

At the beginning of 2016, we thought it appropriate to communicate some good news to all our clients. It is a general phenomenon in South Africa that prices of goods and services tend to rise in line with the inflation rate (CPI). The costs of certain services, such as electricity, municipal rates and utilities, as well as professional services, tend to increase at a rate well above inflation.

Thanks to the growth we enjoyed in 2015, we do not have to increase our monthly fees for 2016. SERR SYNERGY is probably one of very few service providers in this fortunate position. Given the current economic climate, we are very proud of this achievement. Our success is due to your continuous support, and we pass this benefit on to you as a client.

As all individuals and businesses look for ways to save money and reduce expenses, we urge you to compare the prices of the other services we offer which you may not use at this point, namely:

- Labour Relations
- Skills Development
- Employment Equity
- Accredited Training and Learnerships
- BEE
- Information compliance such as PAIA and POPI
- Consumer Protection
- Corporate Governance

Our prices are the most affordable in the market and, according to the feedback we receive, clients save substantially when they make use of our services. We would also appreciate any other business you refer to us. Should you require a written quotation for any of our services or wish to forward
